EMPYREAL TIMES

The Ultimate Guide to Quarantining

A quarantine-special curated feature that brings together the best of globally sourced online experiences to engage you & your family.

QUARANTINE LIFESTYLE
SPECIAL EDITION

APRIL 2020

A NOTE FROM THE EMPYREAL TEAM

The Covid-19 pandemic is unprecedented. Along with all its deprivation & terrors, it has given the society something rare and wonderful - an opportunity to take advantage of a valuable resource: Time; allowing us to learn and grow in our socially isolated life.

Considering such an opportunity, our team, has compiled a special 'Quarantine Lifestyle Edition', a user-friendly interactive document, that allows you to explore information of your interest, presenting ideas to reinvent yourself and keeping you entertained in these extreme times.

Through this document, you can directly surf to the webpage of a particular event, venue or an information guide by clicking on the link icon  present at top right corner of every image.

Meanwhile, you can also click on the below listed tabs to directly navigate you to the category of your interest.

[ONLINE TOURS](#)[ART & CULTURE](#)[SCIENCE & TRIVIA](#)[SPORTS & FITNESS](#)[MINDFULNESS](#)[PODCASTS](#)[READING](#)[ONLINE LEARNING](#)[INTERACTIVE APPS](#)[BINGE WATCHING](#)[KIDS SPECIAL](#)[A WALK DOWN THE MEMORY LANE](#)[COVID-19 FEATURE](#)

As we continue to work, our team wishes for the health and wellness of your family, loved ones and friends.

STAY HOME, STAY SAFE.

A WALK DOWN THE MEMORY LANE

Photomyne

Keep you invaluable memories alive for years to come. Scan, store and colorise old pictures that you have treasured for years.

Relive the simpler times with evergreen shows like Byomkesh Bakshi, Dekh Bhai Dekh and Ramayana.

COVID-19 FEATURE

COVID-19 is an infectious disease caused by a newly discovered coronavirus.

Most people infected with the COVID-19 virus will experience mild to moderate respiratory illness and recover without requiring special treatment. Older people, and those with underlying medical problems like cardiovascular disease, diabetes, chronic respiratory disease, and cancer are more likely to develop serious illness.

At this time, there are no specific vaccines or treatments for COVID-19, the best way to prevent and slow down transmission is to be well informed about the COVID-19 virus, the disease it causes and how it spreads. The COVID-19 virus spreads primarily through droplets of saliva or discharge from the nose when an infected person coughs or sneezes, so it's important that you also practice respiratory etiquette (for example, by coughing into a flexed elbow).

Protect yourself and others from infection by washing your hands or using an alcohol based rub frequently and not touching your face.
